Download brother driver for mac The problem that I am having is: I would like to have that ftp site link automatically open my ftp site using a windows explorer window.. Any ideas would be greatly appreciated The only reason you would really need to use windows explorer to open the site vs IE is to upload files to that FTP.. Any idea how i can accomplish this?? I am using a Server 2003 AD environment, website is a HTML format, my clients are using both MAC's and Windows PC's with IE, Safari, Google Chrome, and FireFox.. 99 Ftp For ExplorerUsing the existing Windows Server software and some sort of HTML code would be preferable but not absolutely necessary.
